

Technology and business visionary professional with a dynamic career and an exceptional track record in leading enterprise-wide quality strategies, driving test automation, and fostering innovation across global teams. Seeking to leverage in-depth knowledge of quality governance, automation frameworks, and cross-functional collaboration to drive transformative change within a forward-thinking organization. Eager to contribute to a senior leadership role to apply skills in building scalable solutions, mentoring teams, and driving quality at scale in complex environments.

PROFILE SUMMARY

- ❖ **Seasoned Quality Engineering Leader** with over 12 years of experience, specializing in **enterprise-wide test strategy, automation at scale, and cross-functional team leadership** across diverse industries including healthcare, enterprise IT, and software development.
- ❖ **Resourceful in managing the full spectrum of testing**, including **functional, manual, and non-functional testing** (security, performance), while ensuring comprehensive test automation and validating and enhancing QA strategies for high-quality software delivery.
- ❖ Senior professional with a strong passion for **cutting-edge technologies**, particularly in the **application of AI in testing**, enabling smarter and more efficient quality assurance processes.
- ❖ Experienced in **managing and mentoring teams** while working closely with stakeholders to align quality goals with business objectives, ensuring that **transformation initiatives** meet both technical and organizational needs for **sustainable growth**.
- ❖ Demonstrated expertise in **designing and executing comprehensive test automation frameworks** utilizing industry-leading tools such as **Selenium, WebDriverIO, Cypress, and Jenkins**, significantly improving test cycle efficiency and deployment time.
- ❖ Adept at handling **quality governance frameworks** in regulated environments, ensuring compliance with healthcare and other industry-specific regulations, while promoting continuous improvement and innovation.
- ❖ Deep expertise in **cloud infrastructure (AWS, OpenShift, Docker, Kubernetes), microservices**, and automation strategies, contributing valuable insights into architectural design and the development of scalable, resilient solutions.

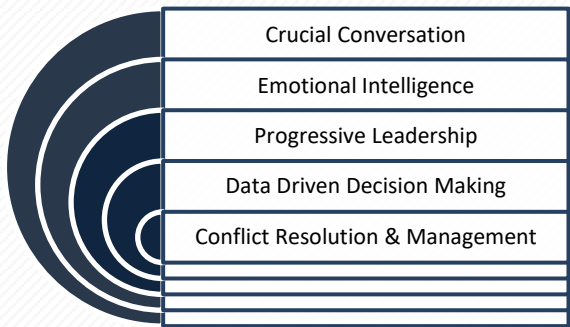

TECHNICAL SKILLS

Test Automation	Selenium, WebDriverIO, Cypress, PlayWright, Postman, RestAssured, Docker
CI/CD & DevOps	Jenkins, GitHub Actions, Git Lab, Maven
Performance & Security	JMeter, OWASP ZAP, Lighthouse, Splunk
AI in Testing	AI-powered automation, Self-healing scripts, Intelligent test data
Cloud Platforms	AWS, Azure

CORE COMPETENCIES

- | | | |
|--|---------------------------------------|--|
| ❖ Software Testing & Quality Assurance | ❖ Regulatory Compliance & Governance | ❖ Non-functional Testing |
| ❖ Manual & Automation Testing | ❖ Stakeholder Relationship Management | ❖ Automation Framework Design |
| ❖ CI/ CD Pipeline | ❖ Risk-based Testing | ❖ Defect Management & Resolution |
| ❖ API Documentation & Validation | ❖ Performance & Security Testing | ❖ Techno-functional Management |
| ❖ Cross-Functional Team Leadership | ❖ Enterprise-wide Test Strategy | ❖ Resource Planning & Team Development |

SOFT SKILLS

ACHIEVEMENTS & CERTIFICATIONS

- ISTQB Certified Tester- AI
- ISTQB Certified Tester- *Foundation Level*
- **Published Research Paper** titled “Implementation of Online Image Editor” (ISBN: 2878-8719).
- **Secured 2nd Prize in Roche Global Hackathon** under the *Best Technical Category* for innovative solution design.

CAREER TIMELINE

WORK EXPERIENCE

Apr 2022 – Present | Principal Technical Lead Test Engineer | Roche Diagnostics

- ❖ **Release Optimization:** Redefined and streamlined release processes, reducing deployment lead time from 7 weeks to 7 days and cutting overall release cycle time by **80%** through CI/CD integration using Jenkins and GitHub Actions.
- ❖ **Shift-Left Strategy:** Led shift-left testing initiatives and implemented early-stage validation practices, increasing bug detection by **30%** and reducing production defects by **60%**.
- ❖ **Automation Architecture:** Developed and maintained robust automation frameworks using Selenium, WebDriverIO, Cypress, and REST Assured, reducing regression testing efforts by **70%** and accelerating test cycles.
- ❖ **AI Integration:** Pioneered AI-based automation strategies, including rapid migration of WebDriverIO from v7 to v9 in under a week, significantly enhancing testing efficiency and adaptability.
- ❖ **Team Leadership:** Managed and mentored a globally distributed team of **30+** test engineers, fostering cross-regional collaboration, driving process excellence, and aligning team goals with organizational objectives.
- ❖ **Compliance & Governance:** Established and enforced quality governance frameworks, ensured adherence to healthcare IT regulatory standards, and oversaw QMS documentation and audit readiness for product releases.

PREVIOUS EXPERIENCE

Aug 2016 – Apr 2022 | Technical Associate Manager - QE | Red Hat India Pvt. Ltd.

- ❖ **Team Leadership & Delivery Excellence:** Led a team of Quality Engineers for an Enterprise Integration Platform, driving consistent delivery of high-quality releases through cross-functional collaboration.
- ❖ **Framework Development & Efficiency Improvement:** Developed open-source Git repositories to build reusable automation frameworks, reducing test setup time from days to just 10 minutes and improving onboarding efficiency.
- ❖ **Test Automation Strategy:** Defined and implemented a scalable enterprise test automation strategy, enhancing test coverage while significantly reducing test cycle duration.
- ❖ **Non-Functional Testing:** Conducted performance, security, and accessibility testing using tools like JMeter, Lighthouse, and OWASP ZAP, ensuring system resilience and compliance with standards.
- ❖ **Tech Stack & CI/CD Implementation:** Utilized a comprehensive tech stack including Selenium WebDriver, JMeter, SoapUI, JIRA, Jenkins, Splunk, and version control tools like GitLab, across RHEL and Fedora platforms, enabling seamless CI/CD execution.

May 2014 – Jul 2016 | Functional Test Engineer - Advanced | Amdocs Limited

Nov 2012 – May 2014 | SQA Engineer | Prototech Solutions & Services Pvt. Ltd.

EDUCATION

-  **Bachelor of Engineering (B.E.) – Computer Science**
S.N.D. College of Engineering, University of Pune

PERSONAL DETAILS

D.O.B: 8th December 1989
Languages Known: English, Hindi, Gujarati
Address: Pune, India
